.NET	.NET Core, ASP.NET Core, Entity Framework Core, LINQ
Integration & APIs	REST APIs, Microsoft Graph API, SharePoint API, External System Integrations
Database	Dataverse, SQL Server
Reporting	Power BI Report Builder, SSRS Reports, Dynamics 365 Report Wizard
Tools	Postman, XrmToolBox, Azure AD App Registrations, Visual Studio

PROFESSIONAL EXPERIENCE

Microsoft Dynamics 365 CRM Developer, Skysoft Connections Islamabad, Pakistan	<i>Oct 2025 – Present</i>
› Plugins & Workflows: Developed scalable C# plugins, custom workflow activities, and business logic for enterprise Dynamics 365 CRM solutions. › Power Automate: Architected and deployed automation flows to streamline business processes and improve operational efficiency. › SharePoint Integration: Implemented SharePoint API integrations within CRM plugins to improve document management and collaboration. › Customer Insights: Configured and customized Customer Insights – Journeys, including segments, marketing forms, real-time customer journeys, and automation. › Solution Delivery: Managed solution customization, deployments, and releases while delivering end-to-end Dynamics 365 CRM implementations from requirements gathering through production support. › Technical Leadership: Guided junior developers, conducted code reviews, and promoted coding best practices across the team. › Stakeholder Collaboration: Worked closely with business analysts and stakeholders to translate business requirements into scalable technical solutions.	
Associate Microsoft Dynamics 365 CRM Consultant, Skysoft Connections Islamabad, Pakistan	<i>Oct 2024 – Sep 2025</i>
› CRM Customization: Configured entities, forms, views, dashboards, and business rules for client-specific requirements. › Plugin Development: Developed C# plugins, custom workflow activities, and custom APIs to implement business logic. › Power Platform: Built Power Automate flows and Canvas Apps to automate business processes.	

- › **Security Management:** Configured and maintained Dynamics 365 CRM security roles and user permissions to enforce secure access to business data and system functionality.
- › **System Integration:** Designed and developed Dynamics 365 Custom APIs to integrate CRM with Microsoft Dynamics 365 Business Central, enabling bi-directional data synchronization through REST-based services.

Junior Microsoft Dynamics 365 CRM Consultant, Skysoft Connections | Islamabad, Pakistan

Oct 2023 – Sep 2024

- › **CRM Configuration:** Assisted in customizing entities, forms, views, and business rules.
- › **JavaScript Development:** Implemented client-side form scripting and validation.
- › **Plugin Development:** Assisted in developing, testing, and debugging C# plugins and custom workflow activities.
- › **Dataverse:** Created FetchXML queries and supported data migration activities.
- › **Canvas App Development:** Designed a Disk Reservation Canvas App using SharePoint as the data source.
- › **Testing & Support:** Performed bug fixing, testing, solution deployment, and production support across development.

.NET Developer

Jan 2022 – Aug 2023

Deltron Systems | Islamabad, Pakistan

- › **.NET Core Development:** Developed backend applications using C# and .NET Core, following object-oriented programming principles and coding best practices.
- › **Database Management:** Developed data access functionality using Entity Framework Core with SQL Server and MySQL, leveraging LINQ for database operations.
- › **Process Automation:** Automated WhatsApp Web workflows using Selenium WebDriver, enabling scalable messaging operations.
- › **Frontend Development:** Developed user interface components using HTML5, CSS3, JavaScript, Bootstrap, and jQuery, leveraging Bootstrap's responsive framework to ensure a consistent user experience.

PROJECTS

Netceed *Dynamics 365 Customer Insights – Journeys | C# | Power Automate | Configurations*

- › **Marketing Automation:** Configured real-time customer journeys, segments, marketing forms, and email campaigns to automate lead nurturing and customer engagement.
- › **Customer Insights:** Customized Customer Insights – Journeys using JavaScript and plugins to enhance marketing forms and user experience.
- › **Process Automation:** Developed Power Automate flows for website lead processing, form submissions, notifications, and marketing operations.

GAMMA *Dynamics 365 CRM | C# | JavaScript | Power Automate | Power BI Report Builder*

- › **Document Generation:** Designed and implemented a configurable document generation solution that enabled administrators to manage version-controlled Word templates and allowed users to generate Word and PDF documents directly from Opportunity, Quote, and Order records.
- › **CRM Customization:** Developed custom entities, relationships, forms, subgrids, ribbon commands, and business logic to support template management, document versioning, and record-specific document generation.
- › **SharePoint Integration:** Integrated Dynamics 365 CRM with SharePoint to automatically upload generated Word and PDF documents, ensuring centralized document storage and version control.
- › **Reporting:** Developed paginated reports using Power BI Report Builder and SQL-based datasets to deliver operational and management reports from Dynamics 365 CRM data.

OMAC *Dynamics 365 CRM | C# | JavaScript | Power Automate | SSRS*

- › **Custom Plugin Deployment:** Created and deployed custom CRM plugins to implement client-specific business logic.
- › **Form Optimization:** Enhanced CRM views and forms with JavaScript for intuitive user interactions.
- › **Process Efficiency:** Implemented Power Automate workflows that significantly reduced manual effort.
- › **Reporting:** Designed and developed **Dynamics 365 SSRS reports** using SQL-based datasets to deliver operational and management reports aligned with business requirements.

Teranoid POS *C# | .NET Core | Entity Framework Core | JavaScript*

- › **Backend Services:** Contributed to a Point of Sale (POS) application using .NET Core and C# for core business logic.

- › **Frontend Features:** Contributed to the development and maintenance of user interface components using HTML, CSS, JavaScript, Bootstrap, and jQuery.
- › **Bug Fixing & Maintenance:** Participated in debugging, testing, and enhancing application features under senior developer guidance.

CERTIFICATIONS

- › **Microsoft Certified:** Power Platform Fundamentals (PL-900)

EDUCATION

Bachelor of Science in Computer Science

2017 – 2021

Sarhad University of Information & Technology, Peshawar, Pakistan

Diploma of Associate Engineering (DAE), Civil Engineering

2013 – 2016

Kotal Institute of Technology, Kohat, Pakistan

CORE COMPETENCIES

- › **Problem Solving:** Analytical thinking with creative, data-driven solutions
- › **Communication:** Clear technical and non-technical communication
- › **Adaptability:** Rapid adoption of new technologies and environments
- › **Team Collaboration:** Effective cross-functional teamwork and mentoring
- › **Time Management:** Efficient prioritization and consistent deadline delivery
- › **Client Focus:** Translating business needs into effective technical outcomes
